

United Nations Framework Convention on Climate Change

REQUEST FOR EXPRESSION OF INTEREST (EOI)

DESCRIPTION OF REQUIREMENTS

The United Nations Framework Convention on Climate Change (UNFCCC), adopted in 1992, is the basis of the intergovernmental negotiating process to address the global problem of climate change. That process is serviced by the UNFCCC Secretariat (“the secretariat”), which has been located in Bonn, Germany since August 1996. The secretariat supports all institutions involved in the process to combat climate change, particularly the COP, the subsidiary bodies and their Bureau in the implementation of the Convention and its Paris Agreement. The Paris Agreement’s central aim is to strengthen the global response to the threat of climate change by keeping a global temperature rise this century well below 2 degrees Celsius above pre-industrial levels and to pursue efforts to limit the temperature increase even further to 1.5 degrees Celsius. Additionally, the agreement aims to strengthen the ability of countries to deal with the impacts of climate change. In this context, it organizes major conferences at locations around the world, provides web-based services to 197 parties and operates various mandated information systems supporting the Kyoto Protocol mechanisms.

The secretariat has been providing ICT services to all stakeholders including about 500-600 staff member, experts, consultants and external parties from all over the world during the workshops and conferences under the operation of Information and Communication (ICT) subdivision and its datacentre hosting partners. In order to perform its business objectives, the secretariat depends on a high performing and resilient network infrastructure with maximum availability and support. Therefore, the secretariat would like to establish a long-term contract with a qualified service provider who can undertake all tasks related to maintenance, implementation and support of an ICT network infrastructure with the following scopes.

1. Maintenance and support of the existing network infrastructure including LAN and WLAN based on Cisco technology. Maintenance and support of the manageable office switches based on Microsens products.
2. Network optimization including but not limited to LAN/WLAN, network management and network security solution. Support for ad-hoc project on the implementation of new network services in the headquarters and possibly in conference sites.

VENDOR RESPONSE

NOTICE

- Companies can only participate in solicitations of the UN Secretariat after completing their registration (free of charge) at the United Nations Global Marketplace (www.ungm.org).
- As you express interest in the planned solicitation by submitting this response form, please verify that your company is registered under its **full legal** name on the United Nations Global Marketplace (www.ungm.org) and that your application has been submitted to the **UN Secretariat**.
- While companies can participate in solicitations after completion of registration at Basic Level, we strongly recommend all companies to register at least at **Level 1** under the United Nations Secretariat prior to participating in any solicitations.
- Companies are reminded of the restrictions of employment of former UN personnel that were involved in the procurement process during their last three years of service as per [ST/SGB/2006/15](#), including (a) employing those personnel for one year after separation of service and (b) allowing those personnel to communicate with, or appear before, active UN personnel for matters related to the procurement process for two years after separation of service. Violation of the provisions of ST/SGB/2006/15 may lead to suspension of the registration of the company as a UN vendor.

PLEASE NOTE: You should express your interest to this EOI electronically at:

<https://www.ungm.org/Public/Notice/253256>

In case

EOI INSTRUCTIONS

1) Registering as a Vendor with the United Nations
