marriages, unintended pregnancies, maternal mortality, new HIV infections and discrimination.

Bar Chaires

Young people, as much as all people, have the right to the enjoyment of the highest standard of physical and mental health, including reproductive health, but there are also compelling policy reasons for investing in young people's health and development. A supportive

Ĺ

transition to adulthood. We need to invest in young people: promote

their human rights and fundamental freedoms and gender equality; provide access to reproductive health information and health care services; encourage their education and social integration; ensure protective measures and safe spaces for the most vulnerable among

The Programme of Action of the International Conference on Population and Development and the key actions for its further implementation highlighted greater equality for the girl child as a necessary first step for women to realize their full potential and become equal partners in development.
