We should announce that we will be joining the Global Compact

...the negotiations

Mr President,

Norway will join the Global Compact for migration but

due to the ambiguity of

...the Global Compact for migration

1. The first step in the process of identifying a problem is to define the problem clearly and concisely.

2. The second step is to gather information about the problem and its causes.

3. The third step is to analyze the information and identify the root cause of the problem.

4. The fourth step is to develop a plan of action to address the problem and its causes.

5. The fifth step is to implement the plan of action and monitor the results.

6. The sixth step is to evaluate the results and determine if the problem has been solved.

7. The seventh step is to document the process and results of the problem-solving process.

8. The eighth step is to share the results and lessons learned with others.

9. The ninth step is to review the process and make improvements.

10. The tenth step is to continue to monitor the problem and its causes.

11. The eleventh step is to evaluate the effectiveness of the problem-solving process.

12. The twelfth step is to determine if the problem has been solved.

13. The thirteenth step is to document the process and results of the problem-solving process.

14. The fourteenth step is to share the results and lessons learned with others.

15. The fifteenth step is to review the process and make improvements.

16. The sixteenth step is to continue to monitor the problem and its causes.

17. The seventeenth step is to evaluate the effectiveness of the problem-solving process.

18. The eighteenth step is to determine if the problem has been solved.

19. The nineteenth step is to document the process and results of the problem-solving process.

20. The twentieth step is to share the results and lessons learned with others.

21. The twenty-first step is to review the process and make improvements.

22. The twenty-second step is to continue to monitor the problem and its causes.

23. The twenty-third step is to evaluate the effectiveness of the problem-solving process.

24. The twenty-fourth step is to determine if the problem has been solved.

25. The twenty-fifth step is to document the process and results of the problem-solving process.

26. The twenty-sixth step is to share the results and lessons learned with others.

27. The twenty-seventh step is to review the process and make improvements.
