TABLE 1. OVERVIEW OF GLOBAL HEALTH AND ENVIRONMENTAL TARGETS AND HOW THEY RELATE TO THE HEALTH AND ENVIRONMENTAL ANALYSIS CONDUCTED BY THE EAT-LANCET COMMISSION

Global targets	Comment	Implementation
NCD Agenda	The Sustainable Development Goal (SDG) 3.4 is to “reduce by one third premature mortality from NCDs through prevention and treatment, and promote mental health and wellbeing”, which builds on the World Health Organization (WHO) “25x25” NCD target.	Imbalanced diets and weight contribute more than half to preventable causes of NCD deaths (the rest is
