

Proposals of Cuba, 26 July.

We would like to note of all those proposals are not new, they were expressed and sent during the previous negotiation.

On IDPs:

As a first comment, we would like to keep the coherence between the name of this High Level Meeting and its outcome so we are not in agreement with the inclusion of the IDPs. The other reason is that the IDPs has other juridical nature, has other legal basis. We cannot use the international framework for refugees neither migrants.

Having said that we would like to DELETE the reference of IDPs in:

1.3; 1.15 and 2.15;

Also, We would like to delete the paragraph 1.19.

In paragraph 1.10 we would like to know where is the source which

Regarding paragraph 2.2, we would like to add the word “girls” after “women” so it reads “who are travelling within large movements of

those selective policies which stimulate disorganized migration, irregular flows we are not speaking about the selective policies that pursue a regular and orderly migration.

ADD 3.4 bis We also recognize that migration also lead to a “brain drain” which has a negative impacts on developing countries. We commit to develop coordinated measures to counter the negative effects of brain drain upon countries that are working to develop their own scientific and technological community and institutional capabilities

In paragraph 4.23 we would like to delete the last part, and read:
“Noting the high-level meeting on refugees which the United States, Jordan, Ethiopia, Sweden, Canada, Germany and the Secretary General will host on 20 September 2016.” *DELETE the rest.*

Also we would like to see the name of those states in alphabetic position.
