permissible. Thus for example the immunities (*ratione personae*) of high ranking State officials (*such*

Commission with the details of our practice in due course, but briefly speaking the key questions have centred on the seniority of the individual and their functional need to travel for the purposes of promoting international relations and cooperation. In practice this has included not only Heads of State, Heads of Government and Foreign Ministers, but also Ministers of Defence and a Minister of

As stated on previous occasions, the UK's position continues to be that the obligation to contribute

attention to the issues that have arisen and trends in the practice and where appropriate making recommendations including model clauses
