

**General Assembly  
Seventy-fifth Session  
10 November 2020  
Sixth Committee  
Agenda item 82  
Expulsion of Aliens**

M(r/s). Chair,

I have the honour of speaking on behalf of the five Nordic countries: Denmark, Finland, Iceland, Sweden – and my own country, Norway.

The Nordic countries would once again like to thank the International Law Commission for its elaborate work on the draft articles on

emphasize the obligation of states under international law to readmit their own nationals who do not have a legal residence in another country. This obligation applies to both voluntary and forced returns.

In conclusion, M(r/s). Chair, we consider that the Committee is best advised to revert to this matter in some years' time.

Thank you.
