~~Mr. Chair,~~

1. Thailand **welcomes the report of the work of the International Law Commission (ILC) at its seventy-third session,** and wishes to **congratulate**

important topics on the basis of sufficient State practice. We will follow with interest the report of the Commission on the progress of the work undertaken both on these three new themes and on sea-level rise in relation to international law, to which we attach particular importance.

11. Seventh, considering the extensive impacts of COVID-19 on livelihoods and economic well-being deeply felt in every corner of the globe as well as the critical importance of international investment on post COVID-19 recovery, Thailand believes it would be of much practical value if the Commission would embark its work on topics that will provide greater clarity on international law principles used in international investment agreements, in particular the fair and equitable treatment -term programme of

codification of international law, which in turn is key to justice, peace, security and friendly relations and cooperation among States.

Thank you, Mr. Chair.
