5th. Continuing to strengthen the ownership of developing countries by building partnerships between all development stakeholders, including bilateral, multilateral development partners, private sector and other. In addition, we must ensure consistency, transparency and accountability between policies of development partners both bilateral and multilateral, with the priorities of national policies in the context of Covid19 and beyond to achieve Sustainable Development Goals

- *Excellencies, Ladies and Gentlemen!*

In this context beyond doubt that we would not be able to have continued global security, peace and harmony without the presence of a strong United Nations, fully respected by all of its member states. In this spirit, Cambodia continues to firmly support the roles of the United Nations and encourage the United Nations to continue playing active role in supporting all member states, especially the developing countries.

Before concluding, I would like to reiterate that Cambodia is ready to all relevant development partners both bilateral and multilateral to contribute to the efforts to restoring the socioeconomic situation and promoting prosperity for all in post Covid19 crisis. I believe that our efforts and collaboration will certainly enable us to achieve the sustainable development vision despite of some delays
