%

- data collected on, and shared between user agencies on definitions, and/or harmonization methods available
- all interactions under the auspices of the UNF, should coordinate the process
- "ides" read consultation on the indicator list completed in summer 2017
- Core set to include indicators related to goals and targets of the UNF
- insufficient countries' abilities to be addressed;

" # \$

- UNF members and regional processes should be actively participating in the process
- Appropriate involvement of actors and other stakeholders as observers
- Completed process to be brought to UNFF and other governing bodies
- National coordination for consistent messages to governing bodies is key;

(intermediate data supply as required)
