

Questionnaire on the Forum's 4POW 2021-2024

1. Thematic priorities: The 4POW 2021-2024 consists of two technical-policy biennium: 2021-2022 and 2023-2024. Consistent with Annex II of ECOSOC resolution 2017/4, the Forum's odd- and even-year sessions for each biennium will be thematically linked on the basis of the GFGs and targets, taking into account the post-2020 programme of work of the High-Level Political Forum on Sustainable Development (HLPF). In order to carry out this guidance, would it be useful for the work programme to (check one):
 - a. Identify three GFGs and associated targets as thematic priorities for a technical exchange of experiences among Member States and partners and a subsequent policy review in each biennium (progress on all GFGs are reviewed in the four-year period), taking into account the post

- d. The initial global stock-taking under the Paris Agreement (to be conducted in 2023)
 - e. Other (please list): Emerging issues and challenges (in order to further provide for the flexibility of 4POW)
4. Technical sessions: Based on the experience of the 4POW 2017-2020, how could the Forum's technical sessions in 2021 and 2023 be organized to enhance the exchange of experiences and interaction among Member States, CPF and its member organizations, and regional/subregional and Major Group partners, and to address the science-policy interface (check all that apply):
- a. Reduce the number of panels to allow more time for exchange of experiences among participants
 - b. Include a panel on the science-policy interface on the thematic priorities identified for each biennium
 - c. Minimize/eliminate the time allocated for opening general statements
 - d. Provide space for exhibits and/or training activities to highlight best practices
 - e. Other (please list): The issue of the science-policy interface should be addressed within technical sessions anyway, but preferably not as a separate panel.
