Background: In 2011, members of the 3T4 adopted a decision on preferential treatment to services and services suppliers of /D\$, known as the services waiver. The decision exempts 3T4 members from the obligation of treating all members equally and allows them to grant market access preferences in services for /D\$, at the Nairobi Ministerial Conference in December 2015, the waiver was extended to December 2020. 3T4, TCM: 15(8) In 2017, the Bali Ministerial Decision established steps to promote the operationalization of the decision. In 2018, the /D\$ group submitted the /D\$ collective request, identifying the sectors and modes of supply of particular interest to them. 3T4 1<3<5) On 4 October 2018, the 3T4 had received notifications from 2 countries indicating sectors and modes of supply where they intend to provide preferential treatment to /D\$ services and service suppliers. The AB had signaled its intention to notify.
