# UNCCT Strategic Communications Project

In accordance with Security Council resolution 2354, the project focuses on:

- **Developing** approaches to countering narratives
- The importance of **digital security** to deny public space to terrorists and violent extremists
- Promoting measures that are in accordance with international **law**
- Implementing in accordance with the **Comprehensive International Framework for Counter-Terrorism Strategy** (CIFT), e.g.:
  - National ownership
  - Whole-of-Society engagement and leveraging of local expertise to build capacity to design local interventions
  - Amplification of positive messages
