7.b. By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States, and land-locked developing countries, in accordance with their respective programs of support.	Target(s): Time frame: Context for the ambition(s):

1.2. Other ambitions in support of SDG7 by 2030 and net-zero emissions by 2050. [Please describe below e.g., coal phase out or reforming fossil fuel subsidies etc.] Target(s):

Powering Progress supports the most ambitious goal of the Paris Agreement on climate change to limit the global temperature rise to 1.5° Celsius. Shell aims to:

1.2.1 Reduce the carbon intensity (Net Carbon Footprint) of the energy products we sell by 20% by 2030, 45% by 2035, & 100% by 2050 (compared to 2016), in step with society.

- 1.2.2 By 2030, operate more than 2.5 million charging points for electric vehicles.
- 1.2.3 Have a positive impact on biodiversity.
- 1.2.4 Conserve fresh water by reducing consumption and increasing reuse and recycling.
- 1.2.5 Use resources and materials efficiently and increase reuse and recycling.
- 1.2.6 Help improve air quality by reducing emissions from our operations and providing cleaner ways to power transport and industry.

Time frame: 2030, 2035, 2050

Context for the ambition(s):

Shell recognizes that tackling climate change is an urgent challenge. It requires a fundamental transformation of the global economy, and the energy system, so that society stops adding to the total amount of greenhouse gases in the atmosphere, achieving what is known as net-zero emissions.

SECTION 2: ACTIONS TO ACHIEVE THE AMBITION

2.1. Please add at least one key action for each of the elaborated ambition(s) from section 1. [Please add rows as needed].

Description	on of action (please specify for which ambition from Section 1) 7.1:	Start al 2021/2
i.	Strong partnerships are essential to deliver sustainable, impactful and relevant energy access solutions. Shell works with a range of local and international NGOs, humanitarian organizations, SMEs and social enterprises to extend the benefits of energy access to remote and vulnerable communities around the world. Some of these include Mercy Corps, Pact, UN International Organization for Migration Mozambique (IOM) and WKH 81 : RUOG) RRG 3URJUDPPH (J\SW :) 3	
ii.	Additionally, providing energy choices for displaced people is far too complex a challenge for one country, community or company to solve. That is why Shell is collaborating with humanitarian and private sector partners to offer access to more and cleaner energy choices.	
Description	on of action (please specify for which ambition from Section 1) 7.2:	Start al
We aim to	o invest on average \$2-3 billion each year in our Renewables and Energy Solutions business.	
Ambition Powering	on of action (please specify for which ambition from Section 1) 1.2.1: Progress supports the most ambitious goal of the Paris Agreement on climate change to limit the global temperature rise to 1.5° Celsius, for we aim to:	Start an Implem
i.	By 2030, end the routine flaring of gas from assets we operate.	
ii.	Secure access to an additional 25 million tonnes a year of carbon capture and storage (CCS) capacity by 2035 ±equal to 25 CCS facilities the size of our <u>Quest site in Canada</u> .	
iii.	Invest around \$100 million per annum in nature-based solutions such as forests and wetlands that store carbon.	
Description	on of action (please specify for which ambition from Section 1) 1.2.3:	
i.	Our new projects in areas rich in biodiversity ±critical habitats ±will be designed to have a net positive impact on biodiversity, starting implementation in 2021.	

ii. Our nature-based solutions projects, which protect, transform or restTm25(ns projects)-25-24(pm or)pQ EMC /P &MCID 27873.jectspm or

SECTION 4: REQUIRED RESOURCES AND SUPPORT

4.1. Please specify required finance and investments for **<u>each</u>** of the actions in section 2.

4.2. [For countries only] In case support is required for the actions in section 2, please select from below and describe the required support and specify for which action.

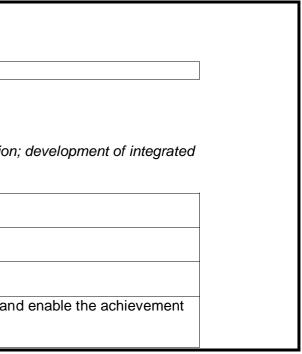

[Examples of support for Member States could include: Access to low-cost affordable debt through strategic de-risking instruments, capacity building in data collection; development of integrated energy plans and energy transition pathways; technical assistance, etc.]

	Financing	Description
	In-Kind contribution	Description
	Technical Support	Description
	Other/Please specify	Description: H¶UH RSHQ WR FROODER Understation of NZE 2050

SECTION 5: IMPACT

5.1. Countries planned for implementation including number of people potentially impacted.

SECTION 6: MONITORING AND REPORTING

6.1. Please describe how you intend to track the progress of the proposed outcomes in section 3. Please also describe if you intend to use other existing reporting frameworks to track progress on the proposed outcomes.

SECTION 8: ENERGY COMPACT GENERAL INFORMATION

8.1. Title/name of the Energy Compact

Decade of Action Agenda to advance SDG7 on sustainable energy for all, in support of all SDGs and in line with the goals of the Paris Agreement

8.2. Lead entity name (for joint Energy Compacts please list all parties and include, in parenthesis, its entity type, using entity type from below)

Shell

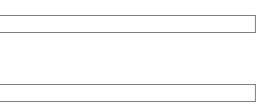

8.3. Lead entity type

Government

Local/Regional Government

Non-Governmental Organization (NGO)

Private Sector
