

Daily Digital Digest at the United Nations Summit of the Future

New York, 21 September - This document offers key highlights from the Office of the UN Secretary-General's Envoy on Technology (OSET) at the Summit of the Future.

"The Global Digital Compact must be a blueprint for closing digital divides, and the first universal agreement on Artificial Intelligence – laying the foundations for a global platform centered at the UN that can bring all actors together."

– António Guterres, Secretary-General of the United Nations

New Pledges for a Better Digital Future

For the first time, leaders, tech companies, activists, and UN agencies gathered for one goal: securing a better digital future for all. Co-convened by [ITU](#), the [Office of the UN Secretary-General's Tech Envoy \(OSET\)](#), and [UNDP](#), the [Summit of the Future Action Day](#) brought together over 500 policymakers, tech executives, academics and civil society leaders to address digital cooperation challenges:
